Overview

The Cost Management (TCM) Grade IV Certificate Program, delivered by the Centre for Lean Excellence in partnership with Toyota Engineering Corporation, equips professionals with practical knowledge of Toyota's proven cost management principles. Led by former Toyota Chief Engineer Mr. Toshio Horikiri, the program focuses on cost planning, target costing, cost reduction, and product planning to improve profitability and support sustainable business growth.

For Whom

Designed for CFOs, Senior Managers, Consulting Professionals, Manufacturing & Operations Teams, Finance Professionals, and Business Leaders, especially those seeking practical methods to optimize costs, improve profitability, and drive sustainable business performance.
